Thursday, April 5, 2007 12 noon – 1:00 p.m.	“What Do I Have to Make? Projecting Grades”	Room 336	B. Watts

January 17, 2007 (5:00-6:00)
January 25, 2007 (12:00-1:00)

“Test Taking and Test Anxiety.” Students will learn test taking skills and strategies as well as relaxation techniques for reducing test anxiety. An evaluation of the student’s level of test anxiety will be (privately) administered.

February 8, 2007 (12:00-1:00)
February 19, 2007 (12:00-1:00)

“Learning to Use the Calculator Effectively.” Students will learn to perform the most important operations in math on their own (current) calculator. Fractions, exponents, radicals, parentheses, etc. will be covered. Students will learn to check much of their work “by hand” with their calculator, giving them independence from answer sheets. **Bring your OWN calculator for this session**

April 5, 2007 (12:00-1:00)

“What do I have to make? Projecting Grades.” Students will learn the basic principles behind calculating their current grade in a given class, and will also learn to project the necessary scores on future tests to achieve a particular final grade.
